

# IEEE ULTRASONICS, FERROELECTRICS, AND FREQUENCY CONTROL SOCIETY

The Ultrasonics, Ferroelectrics, and Frequency Control Society is an organization, within the framework of the IEEE, of members with principal professional interest in ultrasonics, ferroelectrics, and frequency control. The field of interest of UFFC-S shall include theory, technology, materials, and applications relating to: (1) The generation, transmission, and detection of ultrasonic waves and related phenomena; (2) Medical ultrasound and associated technologies; (3) Ferroelectric, piezoelectric, and piezomagnetic materials; (4) Frequency generation and control, timing, and time coordination and distribution. Areas of interest range from fundamental studies to the design and/or applications of devices and systems within the general scope defined above. All members of the IEEE are eligible for membership in the Society and will receive this Transactions upon payment of the annual Society membership fee of \$20.00. Besides receipt of this Transaction, an indirect benefit of Society membership stems from the support it provides for the organization and continuance of the Society Symposia. These events are internationally recognized as the foremost forums for the presentation of the new research and applications result in the field. For information on joining, write to IEEE at the address below. Member copies of Transactions/Journals are for personal use only. Further information about the IEEE and the UFFC Society can be found at <http://www.ieee.org> and <http://www.ieee.org/uffc>. The Transactions is available online to all active members via <http://www.ieee-uffc.org/tr/> and IEEE Xplore <http://ieeexplore.ieee.org/Xplore/home.jsp>.
