Call for ISAF 2025 Organization and Location Proposals

The International Conference on Application of Ferroelectrics (ISAF) is an annual conference organized and sponsored by the IEEE Ultrasonics, Ferroelectrics, and Frequency Control (UFFC) Society that rotates through 3 continents, including North America, Asia and Europe. The upcoming locations include:

The ISAF 2021: Sydney, Australia (Asia)
The ISAF 2022: Tours, France (Europe)
The ISAF 2023: Cleveland, Ohio, USA (N. America)
The ISAF 2024 (UFFC): Taipei, Taipei (Asia)
The ISAF 2025: open for proposals (Europe)

The Ferroelectrics Standing Committee (FerroCom) of the UFFC Society welcomes research groups to bid for the organization of ISAF 2025, to be held in Europe.

- The proposal consists of a written document and a short presentation.
- Please keep the proposal document below 10 pages including supplemental materials.
- The proposal document submission due date is June 14, 2020 (Sunday).
- Please send the proposal to:
  Shujun Zhang: shujun@uow.edu.au
  Jacob Jones: jljone21@ncsu.edu
  Barbara Malic: barbara.malic@ijs.si
- Please prepare for a < 10 minutes overview presentation @ the Ferroelectric Standing Committee meeting on Sunday, July 19, 2020, Keystone, Colorado, USA, between 19:00-23:00 (7:00-11:00 PM).
  Contact person for any questions: Shujun Zhang, shujun@uow.edu.au
- Basic items expected in the proposal:
  - Host country
  - General Chair name
  - Other volunteers who have agreed to support the organization of ISAF
  - Venue city (give the details of the city)
  - Possible venues (e.g. University/Hotel/Conference Centre)
  - Preferred dates (note ISAF “traditionally” takes place in July)
  - Potential for sufficient accommodation
  - Potential transportation suggestion: flight time, airport, connection airport, train, bus, taxi to venue
  - Potential partner conferences
  - Potential sponsorship and exhibitors
  - Draft budget (target number of delegates and registration fee)
  - Conference management service
